

Luis Morales
Mechanical Engineer, SEMA
Email: luism@sema.org

Luis earned his Bachelor's Degree in Mechanical Engineering from Cal Poly Pomona, in June 2016. Soon after, Luis started working for SEMA, within the SEMA Garage Product Development department, as a Mechanical Engineer.

Luis works directly with hundreds of Aftermarket Manufacturers by providing engineering-related services, such as: OEM CAD data, 3D Printing, 3D Scanning, Reverse Engineering, and research on the effects of aftermarket products on ADAS (Advanced Driver Assistance Systems).

These services help SEMA members develop products quickly and efficiently. Most recently, Luis volunteers for the Board of the Southern California SAE chapter, networking and collaborating with mobility professionals on challenges and advancements in the Industry.
